# COMMUNITY HELP

## When lockdown came our role pastorally continued in a different way

There were no social events, seniors, singles, walks, children's events, services at Retirement Homes.

Our services were put on the website or cd's taken out.  
Shopping and prescriptions were collected.  
Telephone support became so important.  
Members of our community offered help and we are so grateful for this and hope that they will continue with their support for the vulnerable of our community.

# The Church and Churchyard

St Peter's is a beautiful church and the running and upkeep of a Grade II listed building is costly.

It also takes quite a lot of effort to keep it looking as it does to be enjoyed by all and also future generations.

If you feel you would like to help inside church or in the churchyard please phone the office
